

MAD & PWA Lab

Journal

Experiment No.	10
Experiment Title.	To study and implement deployment of Ecommerce PWA to GitHub Pages.
Roll No.	25
Name	Siddharth Dha
Class	D15B
Subject	MAD & PWA Lab
Lab Outcome	LO5: Design and Develop a responsive User Interface by applying PWA Design techniques
Grade:	 (A)

2) Ensure all paths in HTML are relative

3) Commit and push your changes.

4) Go to repo's settings > Pages, choose the branch and /root

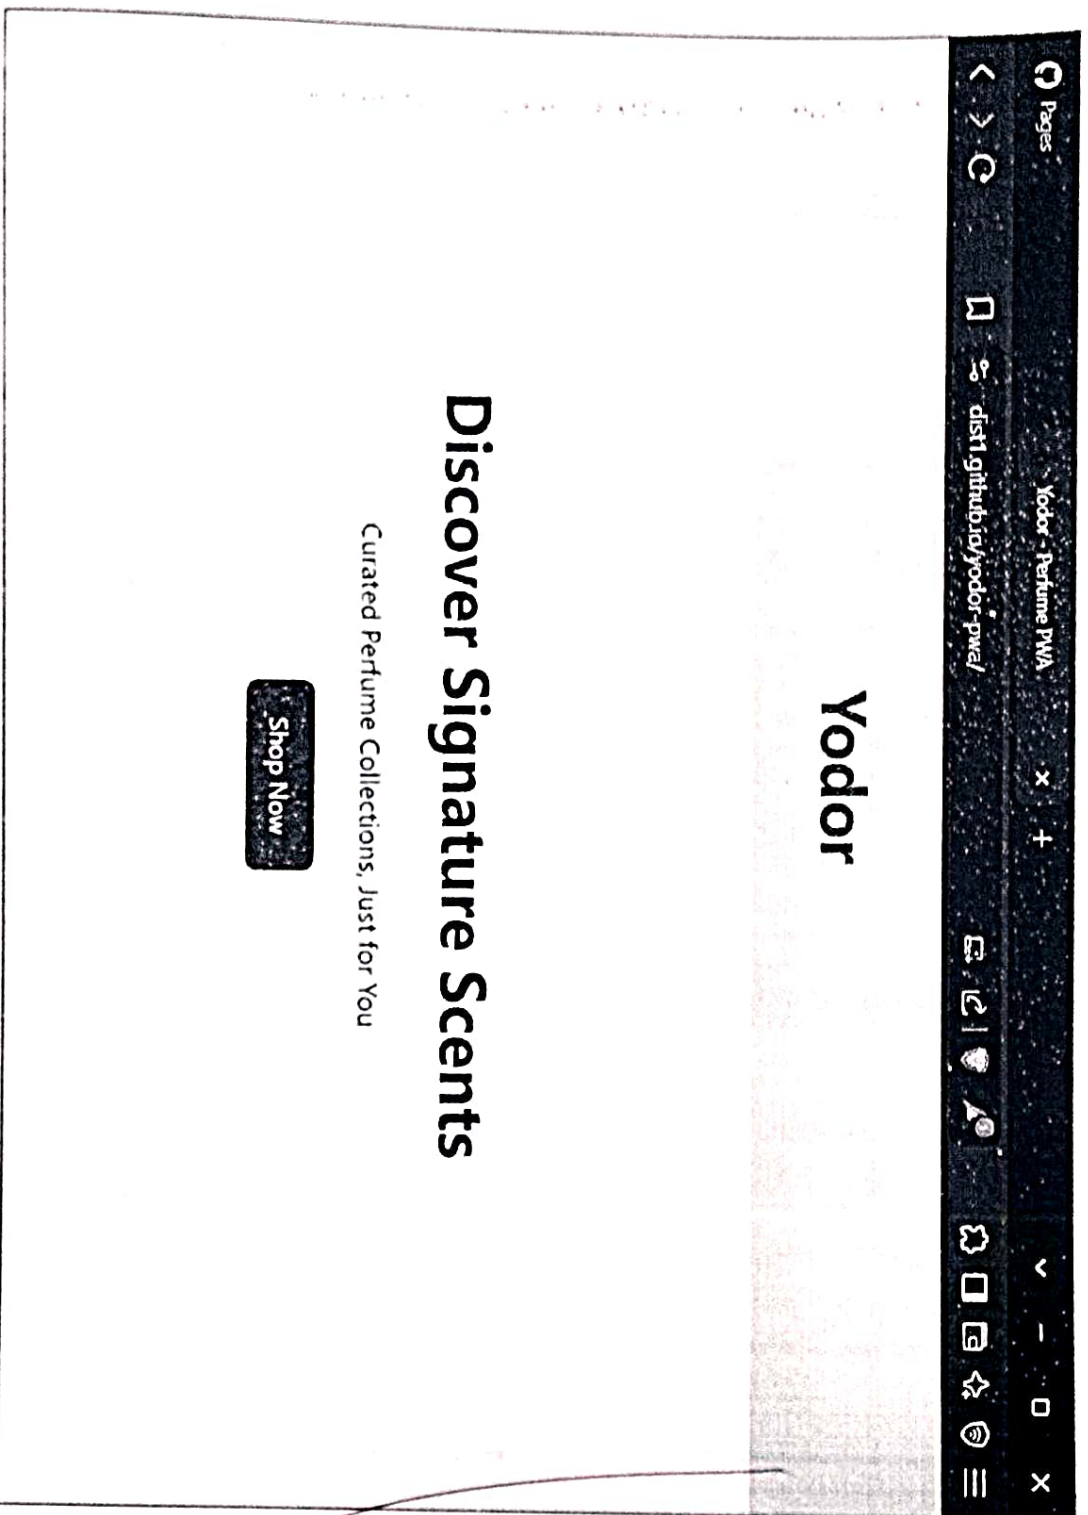

5) Save changes and GitHub will publish your PWA at `https://<username>.github.io/<repo-name>/`.

Conclusion:

The Yador PWA was successfully deployed to GitHub Pages, providing a live, installable, and offline-capable web experience.

This process shows how simple and effective GitHub pages are for hosting PWAs.
