

## MAD & PWA Lab

### Journal

Experiment No.	04
Experiment Title.	To create an interactive Form using form widget
Roll No.	25
Name	Siddhant Jha
Class	D15B
Subject	MAD & PWA Lab
Lab Outcome	LO2: Design and Develop interactive Flutter App by using widgets, layouts, gestures and animation
Grade:	(B) 

## Steps:

- 1) Define a Global key <FormState> to track and validate the form.
- 2) Use the Form widget to wrap the form fields inside the UI.
- 3) Add TextFormField widget for input like name, email or phone.

## Conclusion:

In this experiment, an interactive form was implemented in a simple Flutter app, allowing user input with proper validation. The use of Form and TextFormField widget ensures a clean structure and responsiveness, which are vital for data collection modules in any mobile app.
